

**HIGHLIGHT**

**The role of animal health in national climate commitments**

This paper demonstrates how countries can develop a measurement, reporting, and verification system at a national level to be able to include animal health improvements in national climate commitments. It underscores that enhancing awareness and capacity at national, institutional, and governmental levels is essential.

## BOOKS

### AGRICULTURE

**Guidelines for the calculation of the agriculture water use efficiency for global reporting – The agronomic parameters in the SDG indicator 6.4.1: yield ratio and proportion of rainfed production**  
The guidelines aim to assist countries with irrigation-related variables in AQUASTAT and in calculating a first-stage estimation of agricultural gross value added by irrigated agriculture.  
(48 pp., Portuguese. Also available in [English](#))  
DOI: <https://doi.org/10.4060/cb8768pt>

**Sixteen Urban Food Systems Dialogues for the United Nations Food Systems Summit – Synthesis Report**  
A common thread of these dialogues is that healthy and sustainable urban food systems require a systemic approach. It emphasizes that vertical and horizontal integration can spur the basis of urban food systems transformation.  
(68 pp.)  
DOI: <https://doi.org/10.4060/cc0309en>

### ANIMAL PRODUCTION AND HEALTH

**African swine fever in wild boar – Ecology and biosecurity**  
This document provides an evidence-based overview of African swine fever ecology in the northern and eastern European populations of wild boar. It also addresses risk communication strategies and approaches for effective cross-sectoral collaboration, including establishing two-way communication.  
(128 pp.) FAO, WOAHP & European Commission – FAO Animal Production and Health Manual  
DOI: <https://doi.org/10.4060/cc0785en>

**Good emergency management practice: The essentials – A guide to preparing for animal health emergencies**  
This guide to animal health emergencies includes planning in peacetime, rapid situational analysis in the emergency phase, and recovery strategies in the reconstruction phase.  
(92 pp., Chinese. Also available in [Arabic](#), [English](#), [French](#), [Russian](#) and [Spanish](#)) FAO Animal Production and Health Manual  
DOI: <https://doi.org/10.4060/cb3833zh>

### AN OPERATIONAL TOOL OF THE TRIPARTITE ZOOSES GUIDE

**Multisectoral Coordination Mechanisms Operational Tool**  
The Tool provides a standard stepwise approach for countries to establish or strengthen a mechanism for multisectoral, One Health coordination to manage zoonotic diseases. It contains ten steps, ranging from convening a steering committee to conducting an impact evaluation.  
(Geneva, 44 pp. ) WHO, FAO & WOAHP

**Surveillance and Information Sharing Operational Tool**  
The Tool supports countries in establishing or strengthening a One Health multisectoral coordinated surveillance and information sharing (SIS) system for zoonotic diseases. It provides guidance and a stepwise method for assessing the national structures and mechanisms already in place.  
(Geneva, Rome & Paris, 72 pp. ) WHO, FAO & WOAHP

### ECONOMIC AND SOCIAL DEVELOPMENT

**New development model(s) for desert and oasian zones – Libya**  
This study presents innovations for application of development models in the Libyan desert areas and oases, including investment in the cultivation of crops adapted to dry environments, such as date palms, olives and prickly pears.  
(Tunis, 56 pp.)  
DOI: <https://doi.org/10.4060/cc0719en>

**Report of the vulnerability and capacity assessments in coastal and fishing communities in Saint Kitts and Nevis**  
This report shows that more frequent and intense storms and rough seas lead to loss or damage of key infrastructure, including fish landing sites, markets and other facilities. It recommends building the adaptive capacity of fisherfolk and coastal communities through improving financial and technical support.  
(76 pp.)  
DOI: <https://doi.org/10.4060/cb7303en>

## FORESTRY

### NAFORMA: National Forest Resources Monitoring and Assessment of Tanzania Mainland – Sampling Design Options for 2nd Biophysical Inventory (NAFORMA II)

Three sampling design options were proposed in the study. Option 1 suggests remeasuring all NAFORMA I field sample plots. Option 2 suggests remeasuring only those that were established as permanent. Option 3 is a compromise between the first two options.

(44 pp.)

DOI: <https://doi.org/10.4060/cc0572en>

## GENDER

### Developing gender-sensitive value chains – A guiding framework

This publication reviews the main concepts that are essential to promoting sustainable and gender-sensitive value chains, such as those of women's economic empowerment. It also presents the FAO Gender-Sensitive Value Chain (GSVC) Framework, which highlights the importance of the household level.

(52 pp., Arabic. Also available in [English](#), [French](#) and [Spanish](#))

DOI: <https://doi.org/10.4060/i6462ar>

## PLANT PRODUCTION AND HEALTH

### Guidelines for the registration of microbial, botanical and semiochemical pest control agents for plant protection and public health uses

Harmonization of the different approaches of biological pest control agents is important for streamlining and facilitating the research, development, commercialization and use of biopesticides for plant protection and public health. This document provides national authorities with a framework for registering biopesticides.

(88 pp., Arabic. Also available in [English](#))

DOI: <https://doi.org/10.4060/i8091ar>

### Practical guidelines on pesticide risk reduction for locust control in Caucasus and Central Asia

These guidelines cover the human health, occupational and environmental risks of insecticide handling and use before, during and after locust control campaigns. They also overview measures, such as precampaign medical preparations, that can be taken to minimize risks.

(112 pp., Turkmen. Also available in [Afghan/Persian/Dari](#), [Azerbaijani](#), [English](#), [Georgian](#), [Kyrgyz](#), [Russian](#), [Tajik](#) and [Uzbek](#))

## RECENT RELEASES FROM OTHER UN AGENCIES AND IGOs

### ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT – OECD

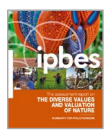

### Agricultural Policy Monitoring and Evaluation 2022 – Reforming Agricultural Policies for Climate Change Mitigation

This report finds that the continued rise in agricultural support has been slower than sector growth in recent years, but has been driven to record highs mainly by temporary factors, including support to both consumers and producers in the context of the COVID-19 pandemic.

(Paris, 652 pp. Also available in [French](#))

DOI: <https://doi.org/10.1787/7f4542bf-en>

### UNITED NATIONS ENVIRONMENT PROGRAMME – UNEP

### Assessment Report on Diverse Values and Valuation of Nature – Summary for policymakers

This report finds that there is a dominant global focus on short-term profits and economic growth, often excluding the consideration of multiple values of nature in policy decisions.
